5. OTHER ITEMS BENEFICIAL FOR THE COST OPTIMIZER

Additional item	Why add it to IP-SAKTI
PCT national phase	Country-specific official fees after the international PCT stage; do not merge them with the WIPO filing fee.
Madrid individual designation fees	Different countries can replace the standard CHF 100 complementary fee with their own individual fee.
Hague designs	Useful if an Ayurvedic product's packaging/container/product appearance needs design protection; WIPO provides an official fee calculator.
Exchange-rate layer	Store official currency + INR estimate + exchange-rate date/source separately.
Fee versioning	Store effective date, source URL and last-verified date because official fees change.
Applicant category	Mandatory input: India has different patent/trademark fees for individuals/startups/small enterprises/educational institutions vs others.
Quantity multipliers	Claims, pages, classes, designated countries and designs can change the final fee.
Government vs professional cost	Keep official fees separate from patent-agent/trademark-agent, drafting, translation and other professional charges.
